

## REMARKS

The specification has been amended to provide correct priority information.

The amendments made reflect the priority data found in the Initial Information Data Sheet and the Utility Patent Transmittal as filed with the subject application on May 8, 2001.

No new matter has been added.

Entry of these Amendments is respectfully requested.

In the unlikely event that the transmittal letter is separated from this document and the Patent Office determines that an extension and/or other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Assistant Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. 03-1952 referencing docket no. 300622001610. However, the Assistant Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

Respectfully submitted,
